INTERESTED IN RESEARCH?

The University of Queensland’s Australian Institute for Bioengineering and Nanotechnology (AIBN) is recruiting high achieving students who are interested in research.

The AIBN provides its research students with:

– supervision from world leading researchers
– interesting, multidisciplinary research projects
– first class facilities and equipment
– access to extensive international networks
– commercialisation opportunities; and
– a supportive intellectual and social environment.

Do you have qualifications in one of the following degrees?

**Bachelor of Applied Science:**
– Biotechnology
– Biochemistry
– Chemistry
– Forensics
– Microbiology
– Biomedical

**Bachelor of Engineering:**
– Medical

If so, please visit the AIBN booth at the Careers Fair or online (www.aibn.uq.edu.au) or contact us by email at RHD.AIBN@uq.edu.au
