We operate two of Australia’s biggest resource projects, the A$27 billion North West Shelf Venture in Karratha, and the adjacent Pluto LNG Project. The foundation stage of the Pluto project will begin production in 2011.

We pride ourselves as a stable and reliable supplier with a focus on delivering on our commitments. With our large natural gas resource base, Woodside is a sought-after provider of cleaner energy. We seek excellence in environmental performance, and aim to ensure that wherever we operate, the local community benefits from our presence.

What our Graduates can expect

Our Graduate Development Program is a key component of the company’s strategy to build a long term capability. To this end, our graduate program is designed and implemented to attract and retain the best possible candidates.

Woodside graduates are permanent employees. You will kick start your career on our three year structured graduate development program, which comprises of several assignments or rotations.

You will receive continual development through:

- Rotational assignments, extensive on-the-job training, and structured business and development courses specifically designed to develop skills within your chosen discipline, and help you achieve your ambitions.
- Support from senior leaders from your discipline.
- Technical mentors and a graduate buddy.
- Involvement in our dynamic community of more then 100 graduates.

We offer a competitive remuneration package that includes performance-based incentives, superannuation and a health insurance allowance, along with generous annual leave, and long-service leave.

At the completion of the graduate program you will be able to continue the advancement of your career through our Young Professionals Group.
